Johney Angel has called our music as "free jazz neo-metal." Experimental live improv. 9 MP3 Songs
ROCK: Psychedelic, ELECTRONIC: Experimental Part 1 Songs Details: ANDROID ANN (PART 1) This album was recorded in the studio live all improvisation(2003.) I sing with some english UKUS words but I also sing in my own made up language, I estimate I'm pretty heroic and blase and I've got to entertain myself some how. Anyway, I LOVE the guys I play with they are such..... AMAZING! players who I obviously speak the same unspoken language with. I've gotten quite alot of feedback on this record but mostly I hear how "TRANCE" like it is. Oh I've also heard how good it would be for movie sound tracking. But what ever it is, it's just alot of moments caught on tape. Honestly, we don't remember doing it we get so high naturally from it. We have to go back and listen and even then we are surprised! ENJOY! and God Bless..... Love, Heidi The players and people involved: Heidi Bower vocals, Guy Birtwhistle guitar, Kris Kwiatowski drums, Brett Netson guitar, Mark Archer guest pedal steel on "NONGTAUKDAR", Tim Johnson engineer and co-producer(you fucking rock!) and Elvis Suissa 2nd engineer Thanks for the studio bro! and thanks a million to Christopher Damerst for the incredible MASTERING! I love you guys.
