This band has spiraled through the generation gap by their innovated musical style, from their sweet mix of Rock n Blues that range from wild to mild. This is Brad Kelseys first album but hes no newcomer to music. His abilities are rooted back to the 20's, 30's and through the 50's where his great grandfather known as Maverick, produced his own records and played for live crowds throughout New York, Chicago and Cleveland. Brads inherited music abilities show that music flows through him. With the help from influences of Eric Clapton, Robert Johnson, BBKing, Albert King, Freddie King, Buddy Guy, Stevie Ray Vaughan and many others. All this echoes through his vocals and his quick fingers soaked with sweat and passion as he keeps the blues alive.
