A truly relaxing blend of classical melodies and original music, combining luscious orchestral strings with piano, flutes, classical guitars and more ... 15 MP3 Songs EASY LISTENING: Mood Music, CLASSICAL: Orchestral Details: Chris is a very experienced keyboard player from the UK. Having contributed to worldwide music groups over many years, he has received considerable acclaim for his style and interpretation. His technique, ability and sheer musicality attracted me immediately. His sense of melody, structure and timing allows him to express himself and his talent to the very best. I have changed my mind from him being a good keyboard player to that of his being an exceptional musician. Here, Chris presents his debut album. A truly entrancing blend of classical melodies and original music, combining luscious orchestral strings with piano, flutes, classical guitars and more. From the angelic Berceuse to the serenity of Meditation and the tranquillity of Londonderry Air, he entwines such classical favourites as these with his own compositions. Performing on Yamaha Arranger Keyboards, his ability to craft orchestral music has received recognition from fellow musicians around the World. Although his first love remains piano, Chris later discovered the world of the modern Arranger Keyboards. These suit his playing style perfectly, enabling him to combine subtle blends of instrument voices to create truly beautiful orchestral arrangements.
