90's ideals with a contemporary feel. This is FAIC's sophomore CD. In comparison to their first you can see the growth and change of their sound. 5 MP3 Songs ROCK: 90's Rock, ROCK: Grunge Details: ...for all I care is based out of Chicago, IL. Together for over 2 years, the band has played many of Chicago's premier music venues. Venturing outside of Illinois, the band has also played shows in Wisconsin and Indiana. This summer marked their first tour to include stops in Missouri, Nebraska, and Colorado. ...for all I care morphed from meager beginnings to a band centered in deep and meaningful songwriting. After playing for nearly a year with four members, FAIC added guitarist Jose Manuel making them a five piece. There are many influences found in their music- a result of the different backgrounds of the members. The ever-changing song styles read like a chronological history in themselves writing the next song to be better and more ingenious than the last.
