As Morrison shocked the audiences with his Oedipal desire to kill dad and eeeeyooooowwww mom, Future Lisa knows she's hit her target when the audience spews beer...She's the nice girl by day who at night gives her dark side its due." Reader Weekly Showcase #9 (performance) "...Lisa's songs reminded me of a tripped out version of Bertolt Brecht. There is a childlike simplicity here, but with definitely grown-up (sometimes adult) themes." David de Young (HowWasthe show.com)
