Sterling's release is grounded in the Rock-Pop music genre with real acoustic-folk roots -- a bit of Americana. With strong songwriting sensibilities honed in the Nashville boiler, this is a solid release. 8 MP3 Songs ROCK: Americana, ROCK: Jam-band Details: Scutter's developed as a songwriter and musician in Nashville with the rigors of studio work and live performances -- playing in the touring midwestern bands Deep Fat, Big Jim, The Frontier, Barlights, and others. Scutter's steady live performance schedule keeps him busy around the Chicago area as well as his standing house gig at Jimmy Buffet's Cheeseburger in Paradise. Scutter's work on the America Song Sampler solo release took over a year -- all of the songs were recorded in his personal studio. Scutter handled all the songwriting, instruments, and production. Optimistic in its understanding of failure, vulnerability and the will to survive, it lifts you from the ordinary, crackles with life not found in Pop music, yet moves you just the same. Part Country, part Rock, part Jazz, part Pop, it is all Soul and it is Sterling. A solo show full of promise, but not compromise." Neil Diamante, Chicago Poet
