And thus, The Traffic Hybrid System was born. Its about paying for a free method - but with several twists. In one sentence, this system is about having other people posting on forums in your industry promoting your products (or products you are an affiliate for). The forums in your industry are where most of your buyers/sneezers hang out - and you can tap into that! BUT, the system is not as simple as it sounds. There are MANY mistakes you can make if you dont know what you are doing. Of course, if you DO know what you are doing, you can earn the maximum amount of money with the minimum smount of time and effort. If Google Has Been Kicking Your Ass, Now Is The Time To Kick Theirs! Lets have a look at whats inside: Why forums are one of the most overlooked goldmines on the internet... How to use forums to find out what your market really wants to buy... How to pick a forum username that will help you make more money (short-term AND long-term). How to set up an effective signature file - very few people know how to PROPERLY use signature files... How to track your traffic from each individual forum you post on... How to draw even more attention to your signature file so you drive even more traffic to your offers. How to earn a living on the internet WITHOUT posting all day on forums. We are all lazy so the last thing we want to do is spend all day posting. Its about working SMART - and NOT hard. How to really post on forums for maximum effect... How to create controversy and posts that get many views (without becoming hated :-)) How to find the biggest forums in any niche quickly and easily... How to create an effective offer. You have several options here (probably more than you realize) so dont be closed-minded :-) Live examples of effective squeeze pages (or name-capture pages). These are great to get inspiration from in order to create your own. Start building your list today! Two old school techniques for creating a high visitor value on your page (so that your visitors spend more with you). These have been proven to work again and again - and yet, almost nobody uses them! How to completely outsource the research of high-traffic forums in your market. You can pay someone a few bucks and they will find you forums that get tons of traffic everyday! You can find people who will post for you all day long - and their posts will be quality, they will love their job and they will be cheap too! A really sneaky way to use other members of a forum so they do your dirty work for you. Dont worry - its perfectly legal and ethical... Copy-and-paste templates you can use to have others do all the work for you! I have done all the work FOR you so you dont have to...
