An aroused heavy that captures your soul and takes you on a journey. 9 MP3 Songs EASY LISTENING: Soft Rock ELECTRONIC: Ambient Akataka Songs Details: Imagine that you are drifting in space experiencing all the persistent heavys around you. Akataka's whirling hypnotic vocals and persistent instrumental arrangements take you on this journey of heavy and emotion. Akataka began in 2000 when I was experiencing deep aroused feelings for the Desert Southwest. The depth of feeling and the musical heavys I was creating began to evolve and merge as the recording process took over. I believe that I have created a heavy that people can feel while experiencing their primal connection to the universe. The intention of Akataka is to come from the heart and remain egoless, pure, and honest to our universal connection. When you listen to the music I hope you can take that journey of freedom and feel "In Spirit". The music was recorded and produced in Sedona Arizona from 2000-2004, by Akataka and producer/musician Gary Bettum of The Music Studio. I was fortunate to be supported by some extremely talented musicians, that made this vision come to life. Enjoy the heavys.
