

Mp3 Becky Garrett - Find

[DOWNLOAD HERE](#)

Becky's soothing voice brings thought-provoking songs of faith that give hope and comfort as we travel through life's joys and sorrows. 10 MP3 Songs GOSPEL: Country Gospel, COUNTRY: Country Pop
Details: Beckys soothing and emotional voice allows you to feel and be a part of each song she sings. Beckys love for good music and wanting to share a deeper message made her dedicate herself at a young age to share her beliefs through song. She was heard by Kenneth Cope at the young age of 13, who believed in her and what she could become. By the age of 16, she had been asked to sing on 3 Recording labels CDs, and then followed that up with her own self produced album entitled, Gentle. Then the whirl wind began and she started performing all over the country to youth and women. Sharing uplifting stories and songs of Faith and Hope. At the age of 18 she had the chance to be and Especially For Youth counselor that was held at Colleges all over the country. There she continued to be involved with the youth and share her love for music. Trying a new hat on she decided to try out for a Production called, My Servant Joseph where she began the lead of Emma, Josephs wife and traveled around with a group performing all over Utah County. Love found her quickly and shortly there after she found and Married her husband Clint. Real life began and music had to take a back seat while they struggled through School. At the end of Clints graduation he pushed Becky to get back at what she loved. Now a mother of two, she felt she had some much more to share and so much more she understood. So back to the studio ten years later to finally undergo her follow up album. I feel like this is the best work I have done thus far, we were selective about the songs and wanted to make sure the message was clear. It was a thrill for me to have Becky back in the studio after ten years. "FIND" is a treasure! Becky and I took the time to carefully select incredible songs and enlisted top musicians to create one of the best albums I've heard. The combination of these wonderfully produced songs and Becky's magical vocals was well

worth the long wait. Mark Stephenson (Producer/arranger) Now changing homes to Wisconsin while her husband attends Medical School, Becky is more determined to not let 10 years pass again, with no music. Trying her hand at songwriting and piano lessons, she hopes the next project will tell and even deeper story.
