For the hopeless romantic and the hard loving. An absolute must for one of Nashville's best sounds. 13 MP3 Songs COUNTRY: Modern Country, ROCK: Modern Rock Show all album songs: Just Getting Started (Loving You) Songs Details: Like most others I've always loved music. For the past ten years I've sang and performed mostly as a hobby for enjoyment in churches around my home in Georgia. I never really entertained the idea of doing it any other way until a few years ago when I began writing my own material. Once all the great feedback started rolling in about the songs I was writing, it didn't take long before I believed this was what I was meant to do and that perhaps one day it might be more than just a hobby. We're all on a journey looking for our place in this world and like most artists I try to write songs about true life situations and even a few "make believe" ones that not only entertain but inspire people to remember, hope, and dream. People are the world's greatest gifts, and music moves us and even guides us towards our potential in life. Something so powerful should always be respected. So finally, with clear purpose and direction, I try to create songs that do just that. Thanks for looking. I know you'll enjoy, and remember to dream big and make it happen. Bradley
