Abstract, redefinition of grey area music. Jazzy, smooth, and lush. Durapitch evolved from the aftermath of the deconstruction of electronica in the late nineties. It is a laid back style, with influences reaching far.

12 MP3 Songs ELECTRONIC: Down Tempo, ELECTRONIC: Experimental Details: Josh Tremba, the man behind Durapitch, has been involved with music throughout his life. He evolved from woodwinds, to guitar, to keyboards and then off to the magical realm of electronic music production. The thing about creating electronic music is that your options and mediums are endless, as compared to playing an instrument in which one is limited to a small quantity of chords, pitches, keys, and strings. The results of this musical freedom is quickly taking the musical world by storm, and one day could very well be the musical world as we know it. Josh is proud to be part of this revolution, and will continue pushing forward with all those listeners and writers who share the same passion.
