As one reviewer stated about the new CD, Pyramid Dreams, "A musical statement...from rockin' to refined". A blend of classical, new age, and rock are tastefully orchestrated together on this musical journey. It's quite a wonder to name the intriguing style on this CD, creating an interesting hybrid of a "classic-age-rock" genre. Beauty and interlaced energy, they form the stones that build this mystical structure of music. Several selections have been suggested to bring forth a movie soundtrack feel. The builders and dreamers of the great pyramids may certainly look upon with approval of this CD. Catch the Dream!
