Easy listening/Island mood/some thing for-U-24/7 15 MP3 Songs WORLD: Island Details: I was born in the Caribbean on the Island of Grenada. My career in music began when I played the guitar in the neighborhood band. Rhythm Riders. I studied piano and subsequently the keyboard became my favorite instrument. I migrated to the United States and lived in New York where I still reside. I continued to play music with Caribbean and American Groups, while playing with the different groups I assisted with writing and arranging. The last group that I played with was called Southroad Connection, we did one album for Mahogany Records, then we were signed to United Artist Records for which we did two albums. Although the group eventually parted, my love for music remained steadfast. I continued to write, setting up my own studio, and recorded my compositions. The CD "Moods&Grooves"(3) consists of various flavors of music. It includes Easy listening\_Calypso\_R&B\_Reggae and inspirational lyrics which are all part of my life experiences. The CD is designed to match the listener's every mood.
