The Players: Eric Dennis - Vocals Rick DeLima - Guitars Jim Gatterer - Drums Jimmy Legnon - Bass Harry Sharpe - Keyboards The Eric Dennis Band is an original rock band based out of Nashville, TN. Eric's first CD "Let's Get Our Groove On", was recorded by Rick DeLima (headroomstudio.com), and soon after the project, Eric and Rick began to write some edgy new rock tunes. This release captures the vibe The Eric Dennis Band creates on stage. Jim Gatterer joined the group in March 2004, and two short months later, brought in Jimmy Legnon on bass. They played in many bands together while living in New Orleans. Harry Sharpe (Wynonna, Donna Summer) joined the group in Sept 2005, to play keys. Take high energy groove based percussion, driving guitars, funky bass lines, and an impressive 2 1/2 octave vocal range, and let it simmer, and presto.. the magic happened. Maroon5 meets Train, and the only one left standing is Blondie!! Hope you enjoy the CD, as much as we enjoyed making it! Check out ericdennismusic to hear full tracks from the CD, and find out all about this talented group.
