An easy, fluid, acoustic sound that both relaxes the heart and stirs the soul. Her tender voice reaches in and caresses you. 11 MP3 Songs EASY LISTENING: Soft Rock, COUNTRY: Modern Country Details: Jacqui Graziano has been truly a "jack" of all trades. Beginning her career as a professional dancer, she quickly learned a voice also lay within her thus moving on to work in theater until.....penmanship, poetry..writing took root and a song-writer was born. Her first album truly was a labor of love for the sheer craftsmanship of writing. The singer moved to Nashville upon which she almost immediately found herself some true "nashvillians" whom became her mentor. Among them, producer Fred Mollin and arranger to long-time country star Roy Orbison, Jim Kirby. On her album "Are You Thinking of Me" she explores the all-too confusion that accompanies new love. Written while on tour with the National Touring company of Disney's Beauty and the Beast, she has experienced firsthand the toils that distance brings to a relationship. Her style is one of ease, lifting her delicate voice to meet the emotion which overlays an array of acoustic sounds provided by some of Nashville's best musicians. Three tracks provide a little more of a "punch" with some real groove and country two-stepping swing. The rest will soothe your heart and be a great companion for a long road journey! Enjoy!
