The telethon will take place on BET Friday, September 9, 2005 at 6 p.m. All proceeds will go to the American Red Cross. "Heal Me" sends a powerful message. We were looking for a song that best represented the feelings of the people devastated by the hurricane. We chose it as the first song in a series of public service announcements that will run all week promoting the telethon," said Kelli Richardson Lawson, BET's Executive Vice President of Marketing and Communications. "I knew when God gave me the lyrics to the song that it was not just for me, but for others who needed healing. I had no idea the magnitude of people who would truly be 'wounded' and 'weary' with 'weak minds' and 'tired bodies,'" said Chapman who is honored that her song was chosen. Diddy" Combs, Macy Gray, Tara Griggs-Magee (Sony Records), Peter Furler (The Newsboys) and others. "I entered the contest shortly after participating in the Gospel Music Association's songwriting competition. When Heal Me was selected as a 2004 Semi-Finalist, I knew we had something special. With so many people in pain and depression, and witnessing the devastation happening around the world, we need God to heal our land. This song is simple but reaches people's souls," said Kelly. The ISC is an annual songwriting contest whose mission is to provide the opportunity for both aspiring and established songwriters to have their songs heard in a professional, international arena. Amateur and professional songwriters and musicians are invited to participate. It has the most prestigious panel of judges of all the songwriting contests in the world, offering exposure and the opportunity to have a writer's songs heard by the most influential decision-makers in the music industry. The Blue Renaissance Creative Group is a non-profit organization that networks artists who love to share their faith through their lives and music.
