Celtic music from the Isle of Man. Traditional Celtic music played in a contemporary style by five young guys from the Isle of Man. 10 MP3 Songs FOLK: Celtic Folk, WORLD: Celtic Details: King Chiaullee are a celtic music group from the Isle of Man (a small island between Ireland and the UK). They love to chop, change and merge as many different tunes styles they can get our hands on. Admittedly the outcome usually finds its way back to that folk genre (their small line up of Fiddles, Whistle, Guitar, Bouzouki, Mandolin, Bodhran and Double Bass makes sure of that!) but the more you listen, the more you realise those weird and wonderful musical twists that King Chiaullee are fast becoming world renowned for! This CD Nish! is the latest album from the lads, and features mainly original compositions arranged in their own distinctive style. Combining traditional Celtic orientated instrumentation with funky grooves and catchy tunes, King Chiaullee have produced a great album which will appeal to anyone!
