Details: MoR (Italian born Sound Engineer and Drummer Antonio Rosselli), started his computer music adventure in the early 90s. A big fan of English Electronic labels like Warp, Ninja Tunes and Leaf inspired him to produce ambient, experimental and down tempo tracks. Moving to Sydney in 2003, Antonio immersed himself in the Sydney music scene and something in his sound changed. Influenced by this new scene, his music has evolved with a more melodic, upbeat, experimental, glitch sound. MoR performs an eclectic live show of electronica blended with indie and ambient sounds. The original avant-garde beats gets brought alive through the use of live instruments. The show becomes a one of a kind experience when the sound melds with original visual art projections. Other project Antonio is involved in is Astro Balls and The Crazy Sexy [myspace.com/astroballz](http://myspace.com/astroballz) (drums)
