The new urban-electro-dance album from Jason Mosby, compiled from sessions over the past 3 years. 12 MP3 Songs ELECTRONIC: Techno-Dub, ELECTRONIC: Techno Show all album songs: Bit[r] Songs Details: Next.Time.Gadget has never been afraid of the live session, and his new record, Bit[r], is a testament to that. The long anticipated follow up to the monster hit Brownmail will hit the shelves on August 21, just in time for school. Over 3 years in the making, Bit[r] brings together tracks from live sessions in Boston, Raleigh, Atlanta, and Jacksonville, and this new release captures a little bit of the essence of each city. Although a departure from his much darker past works, Next.Time.Gadget still delivers his unique style across multiple genres of electronic music. Bit[r] is sometimes gritty, sometimes melodic, but it's always rhythmic and full of energy! It's a fun album for those who like to dance, bob their heads, or just want to chill.
