West Coast-Street-Hip Hop Mack Music 13 MP3 Songs URBAN/R&B: R&B Rap mix, URBAN/R&B: Urban Details: R&B I am an Artist, thats my life long commitment. I have been a performer / writer for over 15 years. Recorded and performed with the best in the business. I started my career with International Records back in 1995 with the group Me and My Cousin, signed my first recording contract with Priority Records that same year. Our first album titled International was produced by Platinum Producer Rhythm D. I spent time touring with Platinum recording artist Paper Boy and later began touring with well know Inland Empire recording artist Sly Boogy and a group we formed called The PBG Through out my career I have released several albums; Chronically Impaired", Talk Show and my latest project on Hands On Records, produced by DNA Productions, titled I-Ebonics. This album is a combination of my 15 years experience, and will prove to be my best work to date. In an industry that is over saturated with home studio producers and one hit wonders, I have strived to create music that is professional and of quality. I look forward to the responses of my new work, and will continue to strive for perfection and representation of true Rap / Hip Hop culture. R&B
