

Mp3 Silica Gel - Genesis

[DOWNLOAD HERE](#)

Silica Gel is one of the most exciting Spanish-language synthpop / electronic bands to emerge in years, with dramatic vocals and cutting-edge production. 10 MP3 Songs POP: with Electronic Production, LATIN: Rock en Espanol Details: Not only is Silica Gel the most exciting Spanish-language synthpop act to emerge on the scene in many years, they also happen to be one of the most exciting synthpop bands in ANY language, hitting the scene with a completely solid debut album, "Genesis". As the name suggests, this is intended to be merely the beginning, but the band's career sure starts with a big bang, cranking out one soaring, emotional, edgy hit after another.
