Urban rock. Great Songs. 10 MP3 Songs POP: with Live-band Production, ROCK: Funk Rock Details: There's a lot more music happening in Nashville than country. STONECROSSING is makin' waves in Music City... STONECROSSING is a new musical movement that started when six people from all walks of life met in a small dark room and discovered that they all had the same dream and goal in mind; to share in music, tell their story, and bring back the joy they once had through their talents together; not as individuals, but together as unit (stone). With all their different influences ranging from rock, blues, hip-hop, funk, and country a unique blend (crossing) of sound was created. Marie 'Gypsy' the 'southern belle', with her country influences. Shane 'Boogie', the hippie, brings the funk and hip-hop sound. Paul 'Casper' gives us a jazz influence. Pedro 'The Chef' introduces a reggae beat to the band. Terry Green 'Hobbit' brings with him classical and R&B influences. Rob 'Crow', who loves all life forms of rock music. This made it easy to envision a project that would allow STONECROSSING to release a new sound and album to the world, in hopes that everyone will find something they like and connect to; much like the band have connected to each other. We hope you like the album. CONTACT INFO: Please direct inquiries to crossingfans@hotmail.com. Website inquiries should be directed to webmaster@stonecrossingmusic.com.
