An eclectic blend of trip hop, indie rock, and electronica that speaks to all who dare to indulge. 15 MP3 Songs ELECTRONIC: Down Tempo, HIP HOP/RAP: Trip Hop Details: Toriano Terrell is an artist with a vision. In a world made up of sounds and vibrations, he captures this feeling and transforms it into his own thoughtful and eclectic, downtempo blend of music. Really laid back guitar lines, hip-hop based loops, and various other strange sounds. Sometimes adding ghost-like vocals, and various dialogue, creating a sound that is worth every ear to at least get a sample. Kid Called Computer is an album for those who just enjoy music, and appreciate those who steer clear of the norm. Pick it up.....you might like it.
