

Mp3 Walkers Cross - Made In America

[DOWNLOAD HERE](#)

Walkers Cross cranks out an eclectic mix of Southern-Rock, Blues and Rock-n-Roll. 9 MP3 Songs

COUNTRY: Country Rock, ROCK: 70's Rock Details: Walkers Cross was created by two guitar players and childhood friends Patrick Pileggi and Steve Suarez in 2001. They both believed that what was missing in music today was a true back to the basics rock-n-roll band. Not knowing in what direction their music would go, they began to collaborate in what would be the beginning of a great sound. After writing and arranging the beginning of the Walkers Cross sound, they started looking for other musicians who had the same drive and dream. The first decision they made was a bass player Steve has played with off and on for over ten years, Steve Miller, an amazingly strong and talented musician in his own right. After working with several drummers, they started asking around to fellow musicians and friends if anyone new of a dedicated musician drummer. The person they kept hearing about was Danny Bernard. Danny has been a working drummer for years, playing with some of Northeast Ohio's premier musicians. Wanting concentrate more on vocals (though still playing guitar) Patrick decided to ask his brother Dino Pileggi, who has been a touring musician for over 12 years, to join and play rhythm guitar. Finally all the pieces are together to create a great band. With influences ranging from The Beatles, Stevie Ray Vaughn, Allman Brothers, Michael Stanley, Kiss, Led Zeppelin and many others, Walkers Cross cranks out an eclectic mix of Southern-Rock, Blues and Rock-n-Roll.
