House, Underground, UK Garage, Speed Garage, 4x4, Old Skool, Grime, Dub Step & 2 Step The Ultimate Underground Music Producer Pack. Contains over 550 samples of beats, loops, basslines, chord stabs & hits, sound fx and vocal snippets, all royalty free. Jeremy Sylvester is probably the UK's most prolific dance music producer, having started out his career from the early Jungle / Drum n Bass days as Dubtronix through to his long stint at the UK's premier Underground House & Garage label Nice n Ripe Recordings, then with Azuli Records and currently signed to Roger Sanchez's label Stealth Recordings as Juice String. This pack contains very exclusive sounds built up over many years from 1992 onwards, as well as newly created sounds. Good producers over the years develop an ear for sounds, and over time develop their own unique sound library. We hope you will be inspired by Jeremy's sound collection, and hope you will develop your own sound from them. So, if you're an established or up & coming producer, we

are confident you will find plenty of use from this pack.
