Understand the meaning behind the Shining Void with this CD Mega-Single, and visit 8 MP3 Songs ELECTRONIC: Pop Crossover, POP: British Pop Details: Psykasonik founder/singer and Platinum Record-winning producer Paul Sebastien returns to the music world after 8 years, teaming with Wideband Network founder Caesar Filori to create Basic Pleasure Model (also known as 'BPM'), with a mission to add some lushness, intelligence and un-apologetic Hedonism to the current dreary rock music landscape that permeates you at every turn. With their first CD Mega-Single, Sunyata, featuring incredible tracks by such remixers as Lush79, KiloWatts, 3PM, Pedestrian and others, Basic Pleasure Model delivers on the best of what was Psykasonik while forging brand new ground. The result is a highly original blend of lush intelligent electronic pop with early 80's British analog heaven, all wrapped-up in a tasty stew of heady Taoism-meets-Budhist-meets-Paganism.
