Acoustic guitar and vocals with a touch of today's engineering 12 MP3 Songs in this album (45:59) !

Related styles: FOLK: Modern Folk, EASY LISTENING: Love Songs Details: I began this CD in March 2007. When I started I had minimal sound gear. By the time it was finished I had completely upgraded all of my recording gear and software. I felt so confident in the upgrade I decided to re-record the first five songs. I feel like this is my best CD, every new song I try to make my best. Even the photos on this CD are better because I've upgraded my camera too. I've even been able to include a picture of me. I hope you enjoy my music, it's great fun.
