If only all music was this poppy...Honest-to-goodness melodies and hooks, primed for the masses; smashing textures, upfront lyrics and hooks so catchy you can hang your coat on them as you boogie. 5 MP3 Songs POP: Power Pop, ROCK: Modern Rock Details: The debut EP from Clearly and the Mainstream, "It's Like...", takes the raw elements of white people appropriating white music for their own ends and turns it into a delicious, desperate mess. Some say the first song, "sounds like Elvis Costello." Others say the fourth song is "totally some song from the '80s." Either way, the music is undeniably poppy rock (as opposed to rocky pop). And isn't it about time you listened to something from the mainstream, anyway? See below in case you don't believe the hype(!).
