Americana, singer/songwriter, thoughtful songs, some with morals, some, just for fun... 11 MP3 Songs
FOLK: Modern Folk, COUNTRY: Country Folk Details: CowboySlim has been compared to John Prine, Willie Nelson, Woody Guthrie and James Taylor. He writes songs from the heart, and tells stories of common people in most uncommon situations. Born and raised in California, he moved to Nashville to share his gift of music. His lyrics pull at your heartstrings, suggesting ways to make our world a better place to live, and always giving us all food for thought. Sometimes he tries to make you think, sometimes, to make you laugh, but he's always there to entertain you. This is Slim's first studio album. Nine of the songs were recorded at SAE Studios on Music Row, with the other two songs recorded at live performances.
