Related styles: ELECTRONIC: Techno, ELECTRONIC: Industrial People who are interested in Enigma Moby Prodigy should consider this download. Details: Electroprophet is an electronic music project that was launched in Upstate New York at the beginning of 2006. The project was solely conceived by Jason D, who writes and arranges all of the music, and performs the vocals. Completed in June of 2009, "Electro-Dreamer" features 12 tracks of captivating, purely instrumental electronic music. The songs primarily straddle the lines between electronica, ambient, dance, psychedelic, and techno music, and are intended to emmerse the listener in a dreamy and energetic world of sharp sounds and feelings. "Electro-Dreamer" is the follow-up to Electroprophet's debut album, entitled "Let's Put It Back Together," which was released in March of 2008. "Let's Put It Back Together" features 12-track album of hard-hitting and fresh-sounding industrialesque electronic metal, which takes a look at the state of our world and reflects on the dire need for changes. Featuring thought provoking and prophetic lyrics, "Let"s Put It Back Together" was intended to be an album of music that "speaks to the world." Electroprophet's third album, entitled "Mystique of the Millennia," is currently in the works and is expected to be released during the summer of 2009.
