

Mp3 Glenn Green - Made To Praise

[DOWNLOAD HERE](#)

An eclectic set of Contemporary Christian pop songs with a sound for every listener. It is the debut album for Independent Recording Artist/Songwriter Glenn Green containing 12 originally crafted songs 12 MP3 Songs POP: Folk Pop, ROCK: Folk Rock Details: Growing up surrounded by his mother's musical family Glenn Green's career was marked out from the beginning. Throughout his childhood Glenn has known and loved the stage, and though he would never claim any of his early works he has been writing songs from the tender age of 12. Since that time, Glenn has earned a Bachelor of Music in Vocal Performance and faithfully served as a full-time Music Youth Minister in the church for the past 20 years. During his ministry, he has performed across the country for many audiences. It has been a special privilege to work with organizations such as Fellowship of Christian Athletes, Mother's Against Drunk Driving (MADD), YoungLife and others by bringing a message of hope to the schools and community. Recently, Glenn joined the efforts of Northwest Medical Teams, International as an Artist Affiliate strongly supporting their efforts in bringing humanitarian aid to those in need around the world. Because of his great heart for ministry and a desire to reach new listeners with the Gospel, Glenn and his family have undertaken a new ministry, his first independent album, Made to Praise. "It is a tremendous blessing to have received such a gift as these songs from God. My greatest hope for the album is simply that He will use it as He chooses for His glory and the building of His Kingdom." Glenn is now dedicating his time to touring, sharing his music at churches, retreats, rallies, coffee houses, youth events, and concerts. He lives in Texas with his wife Sharon, and son Tyler. They enjoy family time, friends, singing together, picnics on the living room floor and lots of laughter. For booking information contact Glenn Green at glenngreenmusic.com.
