Country music with a twist of rock and folk 16 MP3 Songs COUNTRY: Country Rock, COUNTRY: Country Pop Details: Larry Pless' new music CD, "Cowgirl Love", has 16 tracks of heart gripping, funny bone pulling, country, country rock, country-folk or what ever else you want to call it. This CD will connect with those who have lived long and hard enough to know that life has its share of hard truths, both good and bad. At least some of the songs will get behind that emotional shield we all carry and open doors, behind which old memories will re-appear. Memories, like ghost, that need attention. Memories that do not want to be forever forgotten...just visited once in a while. Tears will fall, grins and giggles will be followed by the urge to stand up and play "country-air-guitar". Music makes us feel better because it bends our emotions one way then the other, working out the kinks in our soul. I hope you have a chance to listen to Cowgirl Love which will be available at cdbaby early October,2006. I also invite you to visit my web site, larryplessmusic, and say howdy. Larry Pless "Cowgirl Love" is a collection of songs that were written by Larry Pless from 1986 through 2005.The styles vary between old school country and "country-pop-rock". Songs are guitar based with lots of back-up harmony vocals.The songs on this CD explore relationships and will be appreciated by people who have been through real emotional experiences.
