"A Fantastic Debut Album - A True Original" - HOTPRESS MAGAZINE. 11 MP3 Songs POP: with Live-band Production, ROCK: Modern Rock Details: Scott Maher has never had a job, that is, if you consider singing your heart out and sleeping in vans, recreational behaviour. He has had previous success with Irish band Beach, having two top thirty hits but left to pursue his own van and singing heart. Scott has had the honour of singing with Sir George Martin (Beatles producer) for three nights in Dublin's National Concert Hall with Jimmy McCarthy and Liam O'Maonlai. As a result he was invited to London to perform alongside a host of impressive names such as Sugababes and The Bluetones. Scott has also opened for artists including Texas, World Party and Jules Holland among others. Hotpress writes - Much of what Maher does is impeccably well-crafted, cleverly arranged and convincingly developed. "You'll adore Pyramid for Maher's attractively aching voice". Since the release of his debut album Cartoon Moon, Scott has received some great reviews (below) and has just completed his first successful Irish tour as a solo artist. More recently having returned from NY he has placed the song "My Star" on the movie "Light Years Away" and two more songs "Air" and "Roundstone" on the movie "Lost on the B-side" both movies due for release this summer in the US. In May June and July he looks forward to NY and LA .
