"In their latest book, "Goal Getting - The Science of Achieving Goals", Terry and Peter have unlocked the mysteries of success, both in relation to career and life goals, in a well researched but simple to read handbook. The book makes it clear that 'ordinary people' can achieve extra-ordinary things - things that they previously thought could only be achieved by 'other people'. Exploding that myth can be achieved through the power of structured goal setting and self belief - I can personally vouch for the effectiveness of the methods presented." Ed Bradley Head of Portfolio Management & Models Risk Management Division HBOS Australia "If you have ever set yourself a goal and failed to achieve it, read this book! Goal Getting contains painstakingly researched but practical and easy to follow guidelines to improve your strike rate of achieving your goals whether personal, sporting or business." Steve Duffy Group Manager Financial Planning Home Building Society "Easy to read, plain English, a 'step by step guide' as to how to achieve your goals (whatever they may be)."
