As she grew she discovered the joys of writing music as well, and it became a powerful outlet for her to express her feelings. For Charlie, music should empower not only the creator, but also the listener. Her fresh approach to children's music stems from the many years she has spent with children from receiving her degree in Art Therapy with Children to the preschools and private homes she has become an integral part of as a trusted caregiver. From all her experiences Charlie believes that music is vital to a child's overall well-being. On her debut album, Im Me, she created music that would be relevant to children's lives; reflecting and respecting their experiences. Elements in the album include a positive take on naptime, learning about the joys of having a new child in the family and discovering the limitless possibilities we all have inside of us.
