halliburtons.com 8 MP3 Songs ROCK: Punk, FOLK: Political Details: While most bands try for a record deal, these resistance rockers from Dallas, Texas, are trying for a new leader of the Free World.

Halliburton(s) front man Nathan Berg says the band's name is meant to dis-honor the thievery of Texas energy giant Halliburton Corp., formerly run by Bush-agenda architect and Vice President of the U.S., Dick Cheney. The band sings about Iraq, corporate sleaze, tax cuts, health care, joblessness and corruption -- part of a contemporary political movement by artists demanding greater honesty from Washington and an end to economic policies helping only the rich and politically connected. Fueling folk, punk and funk resisters everywhere . . . a step to the left to right the power!
