The style is definitely unconventional and, in some ways, adds new dimensions to what can be done with dnb as a genre. Just listen to any of the following tracks for a taste... BEATBOX kicks things off in true Kapsil style: hybrid breaks, thunderous bass, and a funky synth-line keep the track rolling. MISSING LINK showcases Kapsil's more melodic side, delving into an atmospheric drum'n'bass style with a flowing break and deep bass.
