With a natural ability for harmony and song, the talented brother sister duo of Dave and Krista March, along with musical journeyman Jon Preddice, combine to bring a refreshing sound to each performance. After adding upbeat drummer Rob Caniglia to the mix, the balance of energy was complete, creating an ensemble with quality musicianship to back up their soulful and interweaving vocal melody lines. This unique band uses a mixture of folk, rock, and classical style to create a unique voice, not often heard in the Long Island music scene. Band members often switch instruments within a set, relying on their multiple talents to maintain a creative performance atmosphere. Miles to Dayton seems poised for greatness in the near future. Check out their debut full length album, 'A long way back', an independent release that is just the beginning of this band's musical journey. Song quotes: "Love is a stranger to the foolish, Love is unkind" "I recall the time when we were holding on for something more, Life was just a story we read, yet we could not control"
