A mix of acoustic songs and ambient minimalism with some beats thrown in for good measure. 10 MP3 Songs FOLK: Alternative Folk, ELECTRONIC: Ambient Show all album songs: Songs From My Forest Brain Songs Details: This CD has some new songs mixed in with some older electronic songs I had laying around. Even though the styles are quite different I feel that the production makes the CD cohesive. Its alot different from my first one, but more representative of my musical style. My next CD will probably be totally different, so stay tuned.
