Piano driven contemporary Gospel hybrid blending pop, rock and jazz. 13 MP3 Songs POP: Piano, ROCK: Adult Contemporary Show all album songs: Anything Is Possible Songs Details: Anything Is Possible stands as Noelles best project to date. Blending serious lyrics, careful arranging and stellar performances, this CD defines what Noelle is about. Working in collaboration with John Ferraro, producer, Matt Bissonette, and Gordon Rustvold this team has managed once again to create a penetrating experience for the listener. At the downbeat of Higher you can feel the difference. The energy is real, the vocals bright and intense, and the arrangements crafted carefully. It is an uncommon sound when much of what you hear today sounds the same, especially in gospel circles. The title track, Anything is Possible features Noelle and her voice against a subtle backdrop. It is moving and honest. I Long To Know You is another song that reaches out and grabs the listener with its quiet intensity that builds to a crescendo. This CD has become the definitive sound element Noelle needs to say what she needs to say. With Shawn Tubbs on guitar there is musical synergy adding atmosphere and attitude. Tubbs makes his presence alongside Noelles piano the perfect complement for lyrics such as Stand on Holy Ground, Feel the tremble when Love comes down. Love comes down, Life is found, pure and simple, when Love comes down, Love comes down Connecting with Ferraro, Bissonette and Rustvold, Tubbs complete the circle of high caliber musicianship that brings Noelles music to a different level. And it reinforces that Anything Is Possible is a CD to be taken seriously in both meaning and performance.
