60's tinged folk-pop 5 MP3 Songs in this album (19:13) ! Related styles: FOLK: Folk Pop, ROCK: 60's Rock People who are interested in Elliott Smith The Kinks Wilco should consider this download. Details: Seattle, Washington's very own Smile Brigade rocks 60s tinged, electric-folk that plays off a variety of influences. Their shameless melodies sway and swagger from charming pop to searing guitar stompers that grab the senses like sunshine vices and won't let go. Making their way on their own steam, Smile Brigade has been playing shows locally and touring across the US, landing opening spots with acts like Of Montreal, the Lemonheads, Evan Dando, The Dutchess and the Duke, and Modest Mouse (Eric J. of MM has played bass with SB for a couple of shows). Live, Smile Brigade's entourage ranges from the original 4 to 10+ when they enlist fans and friends to take up percussion duties, turning the already tight, energetic set into an all-out dance party. In 2007, Smile Brigade released their debut LP entitled *Take the Precious Ledge Off This Treacherous Ledge*. It received ample regional airplay and caught The Onions A/V Clubs attention; they named Smile Brigade Worst Band Name in 07 under the category of Cutesy Bullshit. Plans for 2009 include a new release on their own label, Tilton House Records, entitled *eering, creaky* (out Feb 17, 2009). This e.p. is a 5-song acoustic experiment that the band recorded in 24 hours. Their signature melodic and jangly folk on this release incorporates the spirit of their live shows, with friends taking up instrumental duties, and also the bare and exuberant busking sets the band has played out on the streets of Seattle. Meanwhile, Smile Brigade will be touring on this new e.p. and working on their follow-up LP slated for an early 2010 release.
