The A to Z of Aesthetics covers its history from Classical Greece to the present, including entries on non-western aesthetics. The book contains a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on the main concepts, terminology, important persons (philosophers, critics, and artists), and the rules and criteria we apply in making judgments on art. By providing concise information on aesthetics, this dictionary is not only accessible to students, but it provides details and facts to specialists in the field.
