"How to Create and Sell Your Own Multiple Digital Products as Fast and Easy as Possible" Let Me Give You 10 Steps That Will Show You Everything You Need to Know About Creating And Selling Your Own Info-products. Don't Waste Six Months Trying To Create A Product When I Can Show You How To Do It

In A Couple Of Hours!!! Greetings Info-product Marketer, First of all I'd like to thank you for taking the time to have a look here. I believe I know what you're looking for and I know that this is it. You are looking for a simple step by step manual that will explain in full detail everything there is to know about creating your own fast selling info products. You want a book that, after you finish it you know exactly what to do and you are not left scratching your head wondering if you missed something and should you read it again. A lot of ebooks out there give you the impression that they are giving you the information you need but they are really not telling you everything you need to know, and you find that out after you've read the book and are none-the-wiser. I want to put an end to the so called secret ebooks that claim to show you how to create a product. After reading my step by step product creation manual you will know exactly what to do and you will have your product online in about 2 hours. Let Me Show You: \* Where to find the best high-quality products that you can resell. \* How to choose your domain name and where to register it. \* How to choose the best web hosting for you. \* How to edit your index page, product page and download page. \* What payment processors to choose. \* How to insert your order buttons and links. \* How to upload your files to your webhost. \* How to make your download page secure. \* Get targeted traffic to your website. \* How to add bonuses to your product page to improve your offer. \* How to upsell to your customers. \* And more...everything you need to know in this 55 page manual. Get it Right Now for the intro price of Only \$16.99 Now you may be asking yourself: if it's so good and it's everything I need, then why is it only \$16.99? It's only that price because it's a brand new product and, I am running a new product launch special offer (WSO) over at the Warrior Forum. That is the usual price of a WSO over there and that is the second phase price that I promised to go with, I know it's a very low price and I know there is a danger of it being perceived as a low value item, but it will be going up in price very soon. This price will certainly not remain, it is going to increase to \$37.00. Even at \$37.00 I believe it is still well under-priced and you will agree with me when you see it and start using it. So, enough time wasting with those other e-books that you may have come across and it's time for you to get the right product creation information that you can start using immediately, no messing about, no confusion, no time wasting, no guesswork, just a pure and simple step by step instructional guide that is exactly what you need to create your own multiple digital products in a matter of hours rather than dragging it out for 3 months, 6 months and more! Order it Right Now for Only \$16.99 100 Money Back Guarantee To Your Success Web Marketing Solutions P.S. - You'll also get Master Resale Rights to this so you can sell it for any price you

like. I recommend you sell it for around \$37.00 P.P.S. - The \$16.99 price will not remain very long, I suggest you get it now before you go and forget about it, and then come back later and see the price at \$37.00 P.P.P.S. - You've got your 2 month 100 money back guarantee so you are not risking anything, and if this manual isn't everything I say it is then I'll give you your money back straight away.
