Dance and Experimental trans-utopian electronic music. 13 MP3 Songs ELECTRONIC: Electronica, ELECTRONIC: Techno Details: Chrisroode's music can never really be classified in any one place. One track burns with wicked fast drums 'n' bass, while the next simmers down into ambient trance. The one word that can fit it all is Electronica Musica. He began his first experiments with sound at age three, with a Fisher Price LP Player. His musical career swayed towards drums and percussion later on in life, which led him into a constant denial of his musical roots. However, the detour proved worthwhile when encountering complex rhythmic problems. Percussion became a passion of sound, where every instrument is a whole new world of music. Eventually record engineering took the place of the denial, which led to home with his first unreleased recordings made in Cakewalk Pro Audio. With a whole new inspiration, and realization of his true passion for music, Chrisroode nears completion of his first released album that still remains untitled. Check back for updates.
