

Mp3 Keltish - World: Celtic

[DOWNLOAD HERE](#)

Celtic folk music strongly influenced by jazz and rock music. Jazzy, funky, raw, emotive and ethereal are all used to describe "Keltish". 14 MP3 Songs WORLD: Celtic, FOLK: Traditional Folk Details: Keltish is a fun, energetic Celtic Quartet. We are all professional musicians with hugely varied influences, coming together to play Irish, Scottish (and other) music, adding our own twist or Keltifying (as we like to call it) each piece. Chelle Fulk is our fiddler. She refers to herself as a Fiddilist part fiddler, part violinist and is also an accomplished violist and singer. The electric 5 string fiddle is her instrument of choice. Lynn Cunninghams passion is singing, but she also plays the bodhran and loves to re-write lyrics to songs, mostly to make funny songs even more hilarious, but sometimes to make a serious song more her own. Kim Davidson plays a variety of instruments and enjoys switching from the harp to the pennywhistle, small pipes or melodica (especially when they all happen in one song!). Glen McCarthy gets time on both the bass and guitar as well as adding back-up vocals to a few pieces. He is a long-time music educator and guitar instructor at the high school and college level. Keltish was the first live band to perform in Second Life (SL). Second Life is an online society, a 3-D virtual world built and owned by its residents. Keltish plays monthly in SL, performing in Lynns living room and broadcasting their sound over the computer to be enjoyed by other SL residents in the US and abroad. The SL concerts take place in the Blarney Stone, a fun little online bar in Dublin. Keltish performs (in real life) in Washington DC, northern Virginia and Maryland.
