German Art Pop - the happy Velvet Underground. 12 MP3 Songs POP: with Live-band Production, POP: 70's Pop Details: Individuality and Originality are very important for Peter Bayreuther (born 1965), violin, guitar, sax, keyboards, back up vocals and composition and Karin Te (born 1963), lead vocals and lyrics. They are eternal lovers on the base of their unique personalities and have created so many songs together: the song "Sonne" (sun) is a pure love song with a very distinct harmony. "Hanf" (hemp) is about the pleasures and kicks of this famous substance, with some Reggae styles but still very extraordinary. They believe in themselves, not in leaders: "Express yourself" is a real groovie HipHop with German/English raps... And first not least on the album: "Kinder vom Universum" (Children from the universe), the song from which the name of the band was drawn: cosmic connections! And here you can read the English translations of the great emotional lyrics of Karin Te: 1) CHILDREN OF THE UNIVERSE WE ARE CHILDREN OF THE UNIVERSE Everything you do changes the now Thoughts that you hatch spin the web The code which links us noiselessly invisibly disappears What used to exist is now swallowed by the past Because it is evident that you and me are linked together eternally Trapped in the illusion that alone we could reach the aim Take the power in your hand throw the cosmic switch For the jump into the new unknown dimension Where the Me melts with the You where the We stills its yearning Where nations disappear where we find the answer of the purpose of life We are infinitely tiny small But still its got to be we are unique non-duplicable copyright Only the mirror on the wall reflects the running of time The picture you see is not the entire you The mirror of your soul has a different face A face without age without time beyond death You see through the mirror the cosmic code See the people see us united and the fear of the unknown strangeness is unmasked and vanishes WE ARE ONE UNDER THE SUN 2) JUNGLEFEVER I carry you off to the jungle of emotions Dont be afraid of the saturated humid sultriness
