Folk music for the new century. This is what every minstrel from Virgil to Woody Guthrie woulda done if they had our toys. Raw and loud, straight atcha. 16 MP3 Songs FOLK: Modern Folk, ROCK: Americana Details: 'Life Love Alcohol' is the second album release by the author of 'Geronimo's Dream'. This one is 16 songs about, well...life, love and alcohol. I've kept pretty close to the first album, thematically; it's a little more acoustic than 'Dream', and the subject matter more tightly focused in that it deals with individuals I've met through the years and places I got stuck in, more than NEWS stuff or broad social issues. I think the mix is slightly superior to 'Dream' (I'd love it if one of you who stumbles across me on this website e-mailed me and told me what you think..) The samples are two minutes each, so there might be enough for you to judge the album's merit. I like it. Hope you do, too. Peace, KBN
