The young acoustic guitarist "T-cophony" who thrills the audience by playing two acoustic guitars at the same time, or showing an incredible speed of the play releases his 3rd album. 26 MP3 Songs in this album (70:54) ! Related styles: EASY LISTENING: Mood Music, ROCK: Acoustic Details: A 3rd album of T-cophony was completed at last! All 27 songs of the collecting to exceed the 2nd album. All of them are impressive works of beautiful melodies full of personality. you would be able to enjoy a wide range of varieties from the hard tune to the sentimental ballad. What I would like to recommend in particular is the fourth song, "Sleepwalker", which is beautiful song that sound with an expanse only by a double neck guitar was made use of in. you might not be able to believe that he is really playing the acoustic guitar alone. I would love to have many people listen to this album, in which you can always find a right song for any scenery.
