COUNTRY: Country Rock, ROCK: Americana Details: "...an artist, passionate in the medium of life,"

-David Osborn From the rolling hills of Almaden Valley to the beaches of Santa Barbara, David Osborn is home in California. Creating music of feeling, and singing about living, David and his company are bringing out west coast country music to the appreciation of people up and down Highway 101. David Mun is the drummer, Michael Osborn plays the bass, Joe Reghitto is the lead guitarist, and David Osborn heads this positive force, with all its heart and soul, in celebration of life's real riches - the experiences. David grew up next-door to the country and a half hour from the city, showing his desire for both in the songs he writes and the life he lives. Their style and sound have been likened to such classic artists as Tom Petty and the Heartbreakers, Bruce Springsteen, Lynyrd Skynyrd, Pat Green, and Waylon Jennings. They are all known to deliver their music as honest, and as open, as the world is around them. The guys have just released Moving On, their first full-length independent album, and are driving forward with ambition to the road ahead. Get ready for a good time, take a listen to the new album, come out to a show, and enjoy the music.
