Soulful Rock 9 MP3 Songs POP: Today's Top 40, ROCK: Modern Rock Details: My music - is rock, soul, blues, pop, funk and love. I hate the little boxes we are supposed to squeeze into so ... I write what comes ... from wherever it comes. I'm Black and Irish so there's no telling what might come crashing through. I grew up in the record business - and I'm still in love with music anyway. I play around LA as often as I can. Spent the last couple of years writing with some great people here in LA, Nashville and New York. Be good to you ... Live the music.
